## ENERGY SECURITY IS A VITAL COMPONENT OF ANY HOME

As we continue to struggle with energy supply, what better way to enhance your property value and attractiveness to tenants, than with a cleaner, cheaper and more reliable energy supply.

In partnership with TRIFold Energy Group, Bright Light offers turnkey solar solutions that will take the hassle out of installing a solar system. We handle everything from funding and installing the solar infrastructure to consumption and performance monitoring.

## OUR RENTAL SOLUTIONS OFFER THE FOLLOWING BENEFITS:

- **100% fully funded** - No upfront capital expenditure required from you
- Full **turnkey solution** that includes all insurance and maintenance costs over the contract period
- **Performance monitoring** and client call centre to ensure **ongoing support**
- **Reduced** energy bills and **increased** savings from day one!
- **Energy security** during power outages
- **Hassle free** application process
